

Source Exchange Committee Process

Source Exchange Technical Committee
April 25, 2006

Notes:

1. Source exchange opportunities for reclaimed water will be evaluated by the Reclaimed Water Technical Committee due to the unique aspects of that source of supply and expertise of the Committee.
2. The Source Exchange Technical Committee will interface with the Tributary Streamflow and Reclaimed Water Technical Committees.
3. Products shown above will be combined into one final Summary Report from Source Exchange Committee on utilization of various sources for voluntary source exchange.
