

South Central LIO

Ecosystem Coordination Board (ECB) Local Forum

Description

The South Central LIO is hosting the October ECB Local forum to share information with Puget Sound stakeholders and practitioners on topics related to collective impact on salmon, stormwater, and thriving communities within the Puget Sound region. The forum will also hold space for panel discussion and Q&A.

The forum will be organized into the following four topical blocks:

- **Block 1:** Stormwater, Salmon Habitat, and Community
- **Block 2:** Stormwater Summit
- **Block 3:** Tools and Projects
- **Block 4:** Challenges and Opportunities

The forum will be held in-person on Thursday, **October 26th, 2023**, from 10am to 12pm at the Smart Building Center.

Objectives

The goal of this forum is to galvanize support in advancing legislative, funding, and programmatic actions that incentivize and support regional efforts to coordinate and advance regional stormwater goals, particularly where they intersect with salmon recovery and community goals.
