Round-table Updates and Reminders

Read through our **WRIA 9 ITC October round robin** slides at this link:

https://docs.google.com/presentation/d/17LCHfUxhdtDhw-nqFu_Dd7cb_NS1M6brs3PReDTn_bl/edit?usp=sharing. Includes updates from WRIA 9 Team, King County, City of Seattle, Covington Water District, City of Kent, Puget Sound Partnership, and Mid Sound Fisheries.

ITC charter updates were approved and finalized. The charter is attached as a separate document for reference.

A recent Google update/change prevents users without Google accounts from uploading pictures to GoogleSlides. ITC members discussed whether a transition to a new round robin update platform/format is needed.

- ITC members voiced general support for the round robin slide deck format. Comments included that the format makes it easy to get updates and ask questions and provides an asynchronous record.
- WRIA 9 staff will investigate the Google picture upload issue further and consider other slide deck platform options.

Please reserve time to review the 2023 Regreen the Green and Monitoring and Research Requests for Proposals between November 2 and November 16.

What projects/information do you want to hear about, share, and/or discuss in 2023?

Contribute to the whiteboarding brainstorm here:

KCD Projects: Farm/Forest/Riparian, Water Quality, and Special Initiatives ([slides here](#))

Rosa provided updates and report accomplishments from KCD projects in WRIA 9. KCD is a nonregulatory special purpose district with a mission to promote the sustainable use of natural resources through voluntary stewardship in King County. KCD provides education, technical assistance, and grants to support forest management, farm conservation planning, wildfire preparedness, streamside and shoreline enhancement, community gardens, urban forests, and local food systems.
